

The suburb of Forde is made up of 29% of green open spaces with a central pond, sports ovals, BBQ areas, playgrounds and a series of walkways and bike paths, plus a village centre. Wee Jasper Stone is the towns feature rock. Utilised in many of the forementioned areas.

Forde's school is currently undergoing construction and large format bookleaf walls are presently being erected using Wee Jasper Stone.

These images show the **construction in progress**.
