

Wee Jasper Stone Features as the product selected for the bookleaf wall of the Korean War memorial.

The former Premier of NSW, the Hon. Morris Iemma, MP, agreed to provide State Government land for the construction of a memorial to commemorate the Korean War.

The memorial site is located at the northern end of [Moore Park](#), a highly significant public parkland area less than 5km from the centre of Sydney. The Park is heritage listed as a place of national significance to the Australian people due in part to its historic setting as a place for significant national events.

The memorial commemorates the Australian and Korean veterans of the Korean War (1950 – 1953).
